

LEDSCREEN®
BEYOND LIGHT.

Installation in doors and side panels

Installation in windows
(can optionally be combined with blinds)

Customized texts, logos or vector graphics

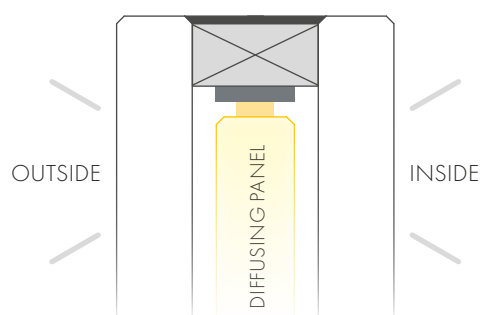

SURFACE LIGHT IN GLASS.

THE MAGIC IN GLASS:

Glass and light could not be more brilliantly combined: During the day, LEDSCREEN® is eye-catching with its modern glass look; when darkness falls, the glass is transformed into an impressive spectacle of light.

Strong or subtle, cool or colorful – our world of light is limitless.

Let LEDSCREEN® inspire you.

You also benefit from energy-saving LED technology, which is also **replaceable** and sustainable.
